Hon. P. S. Webster, of Iowa, Tears His "Forum" Article to Pieces.

**RECIPROCITY IS NOT A HUMBUG.**

Mr. Webster at Harper's Ferry Proves the Benefits of the Reciprocity Clause of the McKinley Bill by Mr. Wilson's Own Figures—The Advantages of Trade in Our Favor.

**Special Dispatch to the Intelligencer.**

HARPER'S FERRY, W. VA., Oct. 18.—Hon. P. S. Webster, of Iowa, addressed a large Republican gathering at this place to-day.

He ably and clearly discussed the currency, tariff and reciprocity, and answered Congressman Wilson's plea as set forth in the *Forum*, that reciprocity is a fraud and a humbug. Mr. Webster showed how West Virginia was reaping benefits under and by virtue of the reciprocal treaties. He said concerning Mr. Wilson: "Your congressman, the Hon. William L. Wilson, sees fit to sneer at and ridicule the reciprocity section of the McKinley law, and to make great sport of the Brazil and Cuba treaties made thereunder. I refer especially to his article in the *September Forum*.

"In the first two-thirds of the article he cackles at the apparent diversity of views held by Republicans when the reciprocity section was first brought to the attention of the public. He thinks in this he has discovered a big egg on which he proceeds to sit with the hope of hatching out some progeny which will be a terror to Republicans. The result, in due time, is that he shows that Republicans differed then, as they do now, with reference to the idea of reciprocity. He is welcome to all the consolation he can extract from that fact. Republicans are not like a lot of parrots, but they propose to investigate and deal studiously with the theories that are brought before them to a unanimous conclusion to put reciprocity into the tariff law.

"The first two-thirds of the article of Mr. Wilson is the merest trash and amounts absolutely to nothing. The last third of the article is germane and to the point. His aim is to show that reciprocity is a fraud and a humbug. He takes, first, the treaty with Brazil and shows that our exports to that country for the past year, April 1, 1891, to April 1, 1892, increased over the preceding year \$1,704,483, and that our exports therefrom increased \$57,000,000 or the same period. He shows further on that in the one article of four we exported in value \$1,745,000 more last year than in the year preceding. In other words his own figures and his own statements admit a large increase of trade with Brazil. He tries to minimize the force of his own conclusions by saying that our foreign trade has increased, in the same period, with countries not embraced in reciprocal treaties and that therefore reciprocity had nothing whatever to do with the increased trade with Brazil.

"For years we have had a small trade with this country, remaining about the same year to year; we make a treaty in which it is specified that our agricultural products and many of our manufactured goods go to that country free, or at greatly reduced rates, while the rates on the same goods and products going from all other countries into Brazil remain the same. Under this condition our trade with that country suddenly and rapidly increases. Why is it that it increases largely due to the fact that our products are given a better rate when passing through the custom houses of Brazil?

"Again, Mr. Wilson takes up the treaty of Cuba. He says the reciprocal treaty has been in force now ten months and that the showing is much better than in the case of Brazil. According to his figures our exports to Cuba have increased in the ten months \$5,702,107 as compared with the preceding ten months, and he further adds which is very important that one-fourth of the increase was in breadstuffs. Mr. Wilson concludes by saying that our exports to the South American countries increased 23.78 per centum but that that amounts to nothing because our imports from these countries has increased more than 50 per centum. He admits a large increase of trade but as might be expected, holds that reciprocity is responsible for it not at all.

"What I have stated as to the treaty with Brazil holds with equal force as to that with Cuba. We have in these countries vast advantages in concessions granted to our products that are not granted to those of other countries. To show the increased trade with Cuba take the first seven months of 1891 compared with the first seven months of 1892:

1891. 1892.  
 Corn, bags..... 24,081 145,599  
 Coal, tons..... 98,890 129,823  
 Coal oil, quintals..... 186,080 310,727

 White pine, pieces..... 69,008 86,286  
 Potatoes, bushels..... 69,008 86,286

"This table should effectually answer the Democratic sneers. It is not proposed to convert any congressman blinded by partisan zeal or so wedded to free trade that he can see no good thing advocated by a protectionist. It should be noted by West Virginia voters that reciprocity is securing them a larger market for their coal, their lumber, their oil and their farm products.

"Your congressman is the pet of the Democrats. They especially desire to see him returned to congress, but your interests are clearly to retire him and to send a man to Washington more alive to your interests than he is to the interests of New York."

**What a Wonderful Cure.**

While it is over thirty years ago since ALCOCK'S POROUS PLASTERS were first introduced to the medical profession and public, the marked success and unprecedented popularity which they met with not only continues, but steadily increases. No other plaster has been so successful in curing so many of the most distressing and dangerous diseases of high value as these continuously accorded to ALCOCK'S POROUS PLASTERS, and the only motive for these exceptional tributes lies in the fact of their being a medicinal and pharmaceutical preparation of superior value. Additional proof of the true value of ALCOCK'S POROUS PLASTERS lies in the fact that they are being largely imitated by unscrupulous persons, who seek to deceive the public by offering plasters which they claim "bear the name," "equal," "as good," "better," "best" or "superior" to the original. It is in general appearance, only that they resemble ALCOCK'S. Every one of the so-called porous plasters are imitations of ALCOCK'S POROUS PLASTERS.

Avoid dealers who attempt to palm off inferior and worthless plasters that are purchased by them at low rates for the purpose of substitution.

The World's Sick Cleveland Fund to Convert the West is Closed.

NEW YORK, Oct. 18.—The World's Sick Cleveland Fund, which was "wound" up last month when the last dollar was in, it "panned out the poorest" of any advertising scheme the World has started. Deducting the \$10,000 which Pulitzer put up as a bait to catch other millionaires, the contributions aggregate \$24,000. Deducting the contributions of the managers of the campaign, the fund amounts to about \$20,000. Deducting \$2,000 contributed by campaign clubs in a competition for a banner which the fund offered as a catch word scheme, the fund amounts to \$18,000. Deducting the contributions of out-of-town newspapers, the fund is actually about \$12,000. This is the result of more than six weeks of effort, during which upward of five hundred columns of appeals have been printed in the *World*. Over fifty thousand circulars were sent out; three men were sent out to make personal appeals—and the fund is \$12,000.

It is time for the Republicans of Illinois, Wisconsin, Iowa, Minnesota, Nebraska and other Western states to unite. The campaign of education is about to begin.

**THE only reason for Mr. Cleveland's nomination, and the thing that forced his nomination in spite of all the efforts of politicians, was the fact that, in the minds of the Democratic masses, he represents the idea of free trade. The platform is an unmistakable declaration against all parleying with protection. It puts the Democratic party in the field as committed to the policy of sweeping away every shred of a protective duty.—Henry George, the Free Trader.**
